### PLEASE READ BEFORE SIGNING:

#### BASIC DRIVEWAY INSTALLATION (UP TO AND INCLUDING 24")

Pipe installation up to and including 24" diameter. Pipe used will be reinforced concrete pipe ONLY. The charges initiated in 2003 will be \$30.00/ft up to 24ft. The price of the installation does not include the cost of the pipe. The pipe can be supplied by the owner or purchased from the Road and Bridge Dept. Purchase of pipe from the Road and Bridge will only be allowed if the county is installing the pipe. Charges will be reviewed annually by the court and adjusted at that time. Additional lengths beyond 24', additional driveways or sloped ends will be installed by approved contractors at owners expense. The minimum width of a driveway install by the county will be 18' (16' only if 8' pipe are available). Maximum 75% of frontage may be filled with pipe and required cleanout boxes. By signing, I agree to the above conditions.
